CHARGING SYSTEMS

OUR STORY

Designed in France. Fulfilled from the USA. Engineered for hospitality operations that demand beauty, endurance, and certainty.

Imagilight's showed the industry what architectural cordless lighting could look like. Starvox was built to show what it can do in the real rhythm of American hospitality — where design, durability, and operational efficiency must coexist.

A FRENCH-AMERICAN HERITAGE

Established in 2011, Starvox unites a US-based hospitality organization with a premier French industrial design studio. Our roots span the Atlantic: European sensibility in form, American rigor in fulfillment.

MADE FOR HOSPITALITY OPERATIONS

Our mission is to remove the operational friction of cordless lighting. We replace chaotic single-cable charging with specialized 5-minute bulk inductive trolley systems, protect profit margins, and streamline back-of-house logistics — all backed by a 12-month commercial warranty and US-based support.

BUILT FOR SCALE

Winning in US hospitality requires more than great products. We are building the partnerships and programs that make large, multi-site rollouts effortless.

PROGRAM 01

Designer Program

We support the architects and interior designers who specify the spaces where Starvox belongs.

- Dedicated specification support
- Fast sample evaluation kits
- Finish & bespoke customization
- Project pricing on 36+ units

PROGRAM 02

US Dealer Program

A growing network of American dealers who recommend, sample, and fulfill Starvox locally.

- Local stock & 7-day delivery
- Co-branded sales materials
- Training & demo units
- 12-month commercial warranty backup

Our 90-day focus: build reference cases across marquee venues, launch the Designer & Dealer Programs, and deploy ABM-led development for hotel groups and procurement teams.
